# Fire Protection with Water Mist

# General Information

---

## Seminar Description

This seminar will be divided into two parts. Part one will be dedicated to acceptance, standards and guidelines. The 2nd part will deal with „systems in practice“. A 3rd and final part will be all about direct exchange: In about three to four groups specific topics that will unfold during the day - possibly by suggestion from the audience - will be tackled in parallel sessions.

This seminar will provide those who attend with a general overview about water mist technology for fire-fighting and national and international guidelines. A look at developments for the upcoming years will also be part of this event.

## Target Audience

Consultants and Safety Engineers, Fire Brigades, Insurance Companies, Architects, Manufacturers, Distributors, Fire Brigades, Governmental Bodies, Authorities having Jurisdiction, End Users, Other Interested Individuals

## Seminar Venue

Lund University  
Sweden  
[www.lunduniversity.lu.se](http://www.lunduniversity.lu.se)

## Seminar Material and Language

The presentations will be provided on the IWMA webpage and will be available for download straight after the event. The presentations will be held in English. No translation will be provided.

## Mode of Payment

Bank transfer or paypal
